Invitation to Participate in a Survey Study about Family Genetic Testing

Siteman Cancer Center is conducting a **survey research study** about how cancer patients who have genetic mutations related to cancer risk discuss genetic testing with their families.

Eligibility:

You may be eligible to participate in the study if:

- You have a diagnosis of breast, colon, ovarian, or endometrial (uterine) cancer
- You have a gene associated with Lynch Syndrome, or Hereditary Breast and Ovarian Cancer, or a gene mutation related to a hereditary predisposition to cancer.

What's involved?

- Visit our website called "Family Genetic Testing Toolkit."
- Complete **two (2) surveys** over 6 months about your thoughts about our website and about your and your family's experience with genetic testing. You will receive a \$10 gift card for each survey you complete.
- You may be asked to invite certain family members to participate in the study, but their participation is not required.

Learn more:

You can meet with a research coordinator to learn more (in person, by phone, or by Zoom).

Christine (marxc@wustl.edu) or

Dr. Andrea Hagemann (Principal Investigator, hagemanna@wustl.edu)

Together, with your help, we hope to learn from your experience and help fight cancer before it starts.
